

letter you know, from hyper
senses, how I feel about
being sick, He has low blood
pressure, bad kidneys, furncho
mal heart trouble etc
Sometimes when he writes
his had a bad spell with
his heart, seems like all
choke, smother etc. So just
awful. Well; I've suffered
in my mind and want to tel
you about it.

Sometimes I almost wish Lois
wouldnt come here, because
I know ill make her feel
bad over these things; then
it will be a change, for an
I hate what she needs,

Well, guess it will all work
out anyway
I should love - Lois
I wish we could get this
But it hadnt appealed to me so
much until God came home

Mrs Rosalia Payne

Provo Utah

Dear Sister - Don't know why
when I have troubles, always
think of you, want to tell
you about them. Of course

when Mother is concerned
its between Lois, you, and me.
Well! Here it is, I've just been

talking with the trustees of
Vernal School and told them
I'd move up there and teach
music and vocational work
in their school after Christ
mas. Now I've known all

summer that I could get this
But it hadnt appealed to me so
much until God came home

The other day and told us he would be out of a job - after Christ-
mas I've decided with the big family we have to educate
and feed, the only thing we can do is to move onto our
ranch and milk cows for our living. The thing that is
bothering me is what to do about Mother. You know
what Vernon is, and I feel like I can't take her up there
Fred has almost lost his health L-4-B
vets tell him he's got to get out, and we can't stay here
it isn't very high but if you don't have it coming in
you can't get about. Now admit that a fact?
Sometimes at my periods. Times, I think I started in
the change, I flow so much and have so much pain.
My Doctor tells me I should go to bed and stay there
for a week, Well, all these things have caused me
a lot of worry, wondering what we can do for her.
You see, Lous is sick, Mummy doesn't want Mother
(she doesn't want to go there) I'm got such a family and
this coming up, just don't know what to do. Of course
the only right thing is to get all of you help me solve it
