Fred is at home to stay,
is going to be Deputy
treasurer half of each
month and will work
outside the other half.
So we think he will
feel better. His health is
improved wonderfully and
we hope he will be well
soon now on. Eating at home
has a lot to do with it.
Mother has had another
bad spell with her stom-
ach, but not so bad as
before. She helps me with
fishes, carries her own
load far out and is awful
hard for her to keep hard.

Dear Sister -

Rec'd your letter a long
long time ago. Sure are dis-
satisfied, that's letters are.
Sometimes I feel as I'd get
something if I could go to
your house, and tell you
my troubles.

There is Lais now, I just
get sick. when I think
that with every thing
else, they have lost their
name. Unless we can't help
it. But it seems so hard
while, had a letter from
here, he says he will
write to you.

Do you feel the hard time
there as we do here. Seems
like its impossible to get
a cent of money.
Wish you'd find out abo

over to my letter. Well, I
guess it will all work
out, But I cant hardly
think of Mothers land
here. Levi says he has
made application to have
our pension increased
to 50.00 and I believe we
could have someone to
take her for that.
You know she always
felt like this is her
home. I hope she doesnt
leave. I hope. I hope.
